

Physiotherapy Education in Belgium

In Belgium, the Master-level grants access to the physiotherapy profession.

FLANDERS AND BRUSSELS

*In the **Flemish-speaking** part of Belgium (Flanders and Brussels) the Master of Science in Rehabilitation sciences and physiotherapy is the entry level for the profession (5 years).*

- 5 Universities in Flanders offer a Bachelor of Science (BSc) in Rehabilitation sciences and physiotherapy of 180 ECTS followed by a compulsory Master of Science (MSc) in Rehabilitation sciences and physiotherapy of 120 ECTS.
- During the master program, a sub-specialization is chosen: musculoskeletal rehabilitation: manual therapy and/or sports physiotherapy, neurologic rehabilitation, rehabilitation of patients with internal diseases, paediatric rehabilitation, geriatric rehabilitation, rehabilitation of patients with mental health problems, education.
- The sub-specialization programs for rehabilitation of patients with internal and neurologic diseases are inter-university programs.
- OVUNOKI is a Flemish inter-university counsel, with representatives of the 5 universities with a physiotherapy education program, which seeks consensus on physiotherapy education-related issues.

WALLONIA AND BRUSSELS

*In the **French-Speaking** part of Belgium (Wallonia and Brussels) the entry level for the profession is the Master level (4 years education: Bachelor 3 + Master 1).*

- 8 Higher Education Institutions offer a Master in Physiotherapy with a program of 240 ECTS.
- 3 Universities offer a Master level program in Physiotherapy and Rehabilitation with a program of 240 ECTS.
- Most of the Higher Education Institutes and Universities are proposing complementary education programs, with differences. It is better to consult the websites for this purpose.
- Some Higher Education Institutes offer a multidisciplinary education in Rehabilitation and Geriatrics.
- Some collaboration started between University and Higher Education Institutions.
